DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-4, 12, 14, 19, 25-29, and 55-62, in the reply filed on December 19, 2007, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 22-24, 35-37, 41, 42, 44, 49, and 63-67, are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 19, 2007.

Response to Arguments

3. The objection to the specification and the rejection under 35 USC 112, 2nd paragraph, set forth in the prior Office action, are withdrawn in view of Applicant's amendments.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. **Claims 1-4, 12, 14, 19, 25-29, and 55-62, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

A. Claims 1 and 3 recite the range "50 ppm or more," which renders the claims indefinite since the undefined upper limit is inclusive of a majority amount

of water within the organic solvent — including solutions that are 100% water — which appears contrary to this disclosure of the invention.

B. In claim 4, the nature and extent of the “use” is unclear and undefined and, consequently, indefinite.

C. The parentheses in claims 19 and 57 render the claims indefinite because it is unclear whether the limitation(s) enclosed therein are part of the claimed invention. See MPEP § 2173.05(d).

Conclusion

6. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
